RESEARCH

I recently started to publish a series of "Big Data". This whole series explores the concepts, applications, technologies, architecture & prediction technics of "Big Data".

SERIES 3

Big Data Applications: The Influencer

Influencer! Big Data proves itself as an influencer in many fields, such as healthcare, weather forecast, logistics, travel and tourism, government and law enforcement, education, e-commerce, IOT, business, media and entertainment etc.

Shubham Rajput
Jul 2 · 7 min read

Big data "Influences" various fields of human requirements with their results.

-Shubham Rajput

Photo by rawpixel from Burst

This series explains various applications of "Big Data" as it influences many fields for e.g. E-commerce, IOT, Media & Entertainment, Healthcare etc.

SERIES 2

Big Data 3 V's and 5 V's

The big data stands on mainly 5 pillars are Volume, Velocity, Variety, Veracity and Value. These pillars are briefly describes in 3 V's and 5 V's architectures.

Shubham Rajput
Jun 24 · 6 min read

"Accurate and required data which having great values with real time information, it contributes in right decision making."

- Shubham B. Rajput

Photo by Domenico Loia on Unsplash

It demonstrated structure and behavior of "Big Data". Big Data stands on mainly 5 pillars i.e. Volume, Velocity, Variety, Veracity & Value.

SERIES 1

What is Big Data?

By processing on big data, we can predict the future as well as present behavior of result about specific thing.

Shubham Rajput
Jun 16 · 5 min read

The world generates 2.5 Quintillion bytes of data per day. The amount of data we produce every day is truly mind boggling. This massive amount of data is nothing but "Big Data".

Photo by Carlos Muza on Unsplash

"What is Big Data?" is the inception series of "Big Data". It explains Big Data concept with real time application basis examples.
